

Fact Pattern Differences

in The Children's Commission Trial Skills Training and Texas CASA's Harris-Price Case Video

1. In Trial Skills Training, Jason Harris and Ernie Price are presumed fathers and facts are added to have Kathy Price formerly married to them.
2. In Trial Skills Training, Rose Price's father will emerge during the case, he will be incarcerated, and he will be opposed to PMC to CPS at the merits trial, instead arguing for PMC to a relative.
3. Trial Skills Training will have detailed CPS history and criminal history for the parents.
4. Trial Skills Training will have the children taken to the hospital after being found in the apartment by Officer Gooden, followed by CPS notification and the investigator meeting the children at the hospital. This fact deviation generates physician reports into the case scenario.
5. In Trial Skills Training, Kathy Price provides some information at the first CPS interview with the investigator. This deviation facilitates enough information gathering to include information for Jason Harris and Ernie Price into the Original SAPCR Petition.
6. In Trial Skills Training, Rose Price is found to have bruising. This fact deviation generates a physician report and facilitates expert witness testimony regarding injury to a child at trial.
7. In Trial Skills Training, the investigative worker completes the affidavit on his own. He receives information from the police officer that is included, although the affidavit is done individually.
